

Last week of school Activities

During the week of May 25-29, it's their last week of school. Have your child draw or write about their favorite event that happened this year in school. Or they can draw and write about what they have learned over the course of the year. Have your child pick from either idea, once they have chosen their idea and finish their drawing, or writing have your child submit it to your child's teacher by Thursday. Once it is submitted it will be put in a book and we will be sharing it through a virtual zoom meeting on Friday. Your teacher will set up the meeting.

How to submit your work you can do it through class dojo, snap a picture and text your picture to your teacher, or bring it to the school and give it to the front office so your teacher can put it in the book.

Please let your child's teacher know if you have any questions or concerns.

Celebrate with us!
